- Kouluttaja:** Roel van Bueren, <http://www.rovabunetworks.nl>

This 3 day course will be delivered by Roel van Bueren from Netherlands. Roel is an independent consultant, trainer and author and currently is focusing on Windows Desktop and Application management, Virtualization, Software Packaging, .NET development, Messaging based on Novell GroupWise or Microsoft Exchange/Outlook and Mobility based on BlackBerry Enterprise Server."

Roel is a regular speaker at many internationally known conferences such as Novell's BrainShare, GWAVACon and several Novell User Groups events. Roel is also actively involved with a website called MSiWisdom (<http://www.msiwisdom.com>) which is dedicated to ZENworks and SCCM Administrators working with Windows Installer.

Kurssin kuvaus:

This course will provide you with a hands-on environment where you will gain the basic knowledge on MSI technology, Windows Installer Service, skills needed to repackage traditional setups into MSIs, rapidly customize them using AdminStudio and distribute these using Novell ZENworks ZCM edition.

In this course the following topics will be covered:

- Basics of MSI technologies
- ZENworks ZCM and MSI
 - o ZENworks Imaging
 - o ZENworks, Group Policies and MSI
 - o Application deployment
 - o ZENworks and Thin Client (Citrix, Terminal Server)
- AdminStudio Full and ZENWorks editions
 - o Tuner
 - o Repackager
 - o Distribution wizard
 - o Conflict solver
 - o Quality monitor
- ZENworks and MSI exercises & practical examples
- Tuning
- Troubleshooting section
